OBJECTIVE

Aspiring Full Stack Developer with hands-on experience in React, MongoDB, and Firebase. Skilled in building responsive UIs and scalable applications. Seeking to contribute to innovative software solutions as a Frontend/Full Stack Developer.

EXPERIENCE

Full Stack Developer Intern | **CTRL-NEXT TECHNOLOGIES** | July 2024 – Present

- Collaborated on developing and optimizing web applications using React, PHP, and SQL, ensuring responsive and user-friendly interfaces.
- Worked closely with cross-functional teams to gather requirements and implement client-focused solutions.
- Built reusable UI components using Bootstrap and custom CSS, improving development efficiency.

EDUCATION

MCA - Computer Applications | Sri Ramakrishna Mission Vidyalaya College of Arts and Science, Coimbatore | 2024 – 2026 | Pursuing

B.Sc. Computer Science | Sri Ramakrishna Mission Vidyalaya College of Arts and Science, Coimbatore | 2021 – 2024 | CGPA: 8.0

PROJECTS

- **Sp-Textiles** – I developed the complete user interface for **SPTextiles**, a textile management software that facilitates inward and outward inventory tracking, customer and supplier management, and stock reporting.Additionally, I built a **Flutter mobile app** that integrates with the software's APIs, enabling users to access stock reports and other business data on-the-go.

- **Phoenix Infoways** – Designed and developed a modern, responsive PHP-based web application using Bootstrap and custom CSS. Additionally, created a **Flutter + Firebase mobile app** to enable real-time report viewing with authentication.

- **Zengraf** – Built the UI for a PHP-based business management software handling job orders, customer/vendor records, and employees. Crafted a clean, intuitive, and responsive interface using Bootstrap and custom CSS.

- **Kosmic Clothing Co.** – Served as UI Developer for a PHP-based business management system developed for the client. Designed responsive interfaces for Orders, Budgets, Suppliers, and Purchase Orders using Bootstrap, DataTables, and MDB toolkits, enhancing usability with advanced search, pagination, and quick actions.

SKILLS

Frontend: HTML, CSS, JavaScript, React, Flutter , Bootstrap, MDB

Backend: Python, PHP, Node.js

Database: SQL, MongoDB, Firebase

Tools: Git, GitHub, Postman, VS Code, Figma

ACTIVITIES

- Completed 1-month training at Easy Design Systems, Coimbatore as a Frontend Developer.
- Worked on setting up the flow of WA CRM for Urdeal, enabling seamless product viewing and easy purchasing for customers.
